ABOUT ME

With a deep passion for **character and creature modelling**, I enjoy developing my skills and challenging myself. I work well on independent projects but I thrive as part of a team. I am actively seeking a career in a 3D studio where my goal is to work on commercial projects and continue to develop my skills.

EXPERIENCE

- Jul/22 – Present **3D Artist** – Blackbird VFX Sydney
- Feb/22 – Jul/22 **Digital Artist** - Animal Logic Sydney
- May/21 – Jul/21 **3D Artist** - Future Associate Marrickville
- Jan/20 – Nov/20 **Modeller** - Animal Logic Academy Sydney

Spirit is an animated short film with a mythological element about a baby wombat overcoming its fears. My contribution to this project was modelling the hero character.

Already familiar with many aspects of 3D character creation like sculpting and retopoing, this project challenged me to learn new skills like blend shape creation. I found this experience challenging and rewarding as it gave me the chance to improve my existing skills, learn new ones and gain more experience working on a large team project.

EDUCATION

- 2020 **Masters of Animation and Visualisation**, UTS – Sydney, NSW
- 2019 **Advanced Diploma of Creative Product Design**, Design Centre Enmore -Sydney, NSW
- 2017-2019 **Julian Ashton Art School**, Study of Anatomy – Sculpture, Drawing and Painting - Sydney, NSW
- 2015-2017 **Bachelor 3D Art and Animation**, Design Centre Enmore - Sydney, NSW

SKILLS

Skills

Digital Sculpting
Hard Surface Modelling
